

Planned Outages - Definition

Grid Code Definition

Planned Outage An outage of a **Large Power Station** or of part of the **National Electricity Transmission System**, or of part of a **User System**, co-ordinated by **NGET** under **OC2**.

- OC2 spans from 5 year ahead to day ahead. Final plan is released by NGET at 16:00 on Mon-Fri
- Only outage remaining in the plan at 16:00 will carry forward to current day.

Modify CUSC definition of **Interruption Payment**

Currently:

1. *In the case of a **Relevant Interruption** arising as a result of a **Planned Outage** the higher of:*

Proposed

1. *In the case of a **Relevant Interruption** arising as a result of a **Planned Outage** which is included in the final plan issued by NGET under Grid Code OC2.4.1.3.5 (c) (iii) or (d), the higher of:*
