# ENTSO-E Stakeholder Engagement

---

- Article 2.2 of **draft** Transparency Guidelines requires consultation on data definitions
- To be attended by the six main European stakeholder associations
- Stakeholder meetings around Q1/Q2 2012
- All relevant documents to be posted on the ENTSO-E website
  - Interested parties can provide comments

## Obligation on Data Owners

---

Article 3.1 of **draft** Transparency Guidelines:

“TSOs, electricity generators, electricity consumption units and DSOs who are the primary owners\* of the data shall submit all information and data specified in these guidelines to the data providers\* to enable publication according to the requirements set out in these guidelines.”

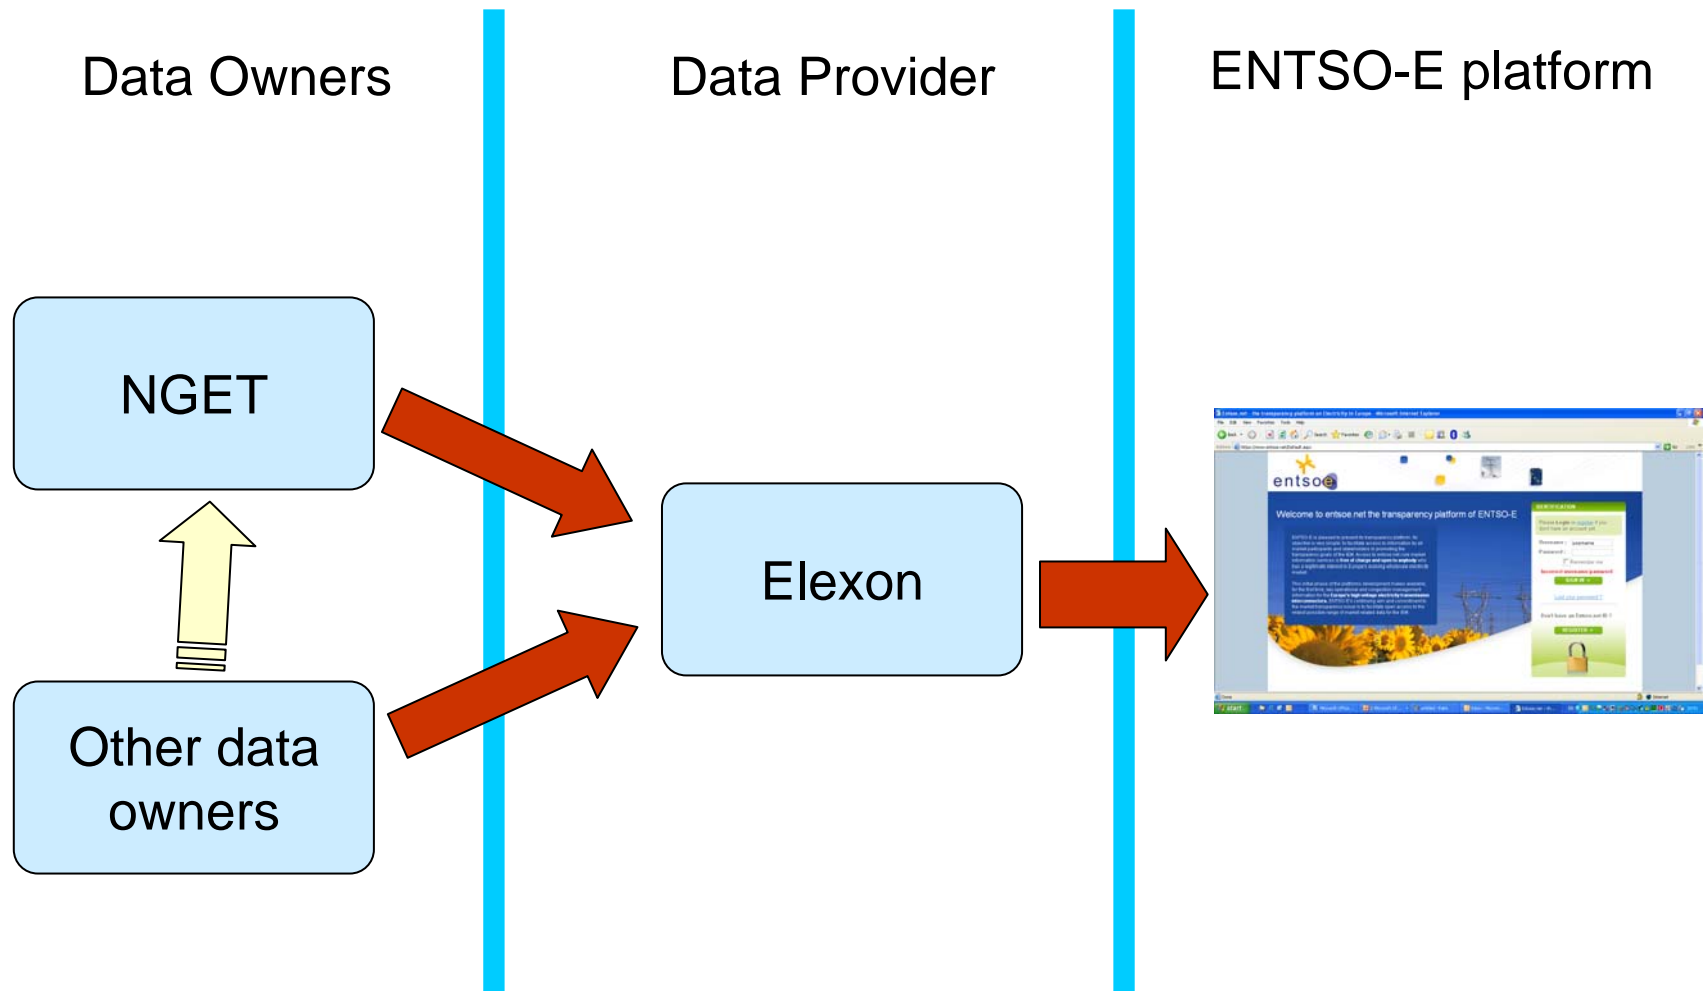

\* Underlined for emphasis

## Rationale for Potential Solution

---

- Consider most efficient route
  
- Where possible, utilise:
  - Existing systems
  - Existing Grid Code / BSC data flows
