

# Fast Reserve Market Information for Nov-15

Monthly Report

Published Sep-15

## Key points

This Market Information Report is relevant for **tenders submitted in October for delivery in November**.

Tenders from eligible service providers for Firm Fast Reserve should be submitted by **Thursday 01 October 2015** (1<sup>st</sup> business day) for all tenders.

National Grid will notify service providers of the outcome of the tender assessment and successful tenders will receive nominated windows by **Friday 16 October 2015** (12<sup>th</sup> business day).

Firm Fast Reserve is required during the following hours:  
- Mon-Fri: 06:00 – 23:00  
- Sat, Sun, BH: 07:00 – 23:00

The volume requirements are explained on the next page.

## Introduction

Fast Reserve (FR) service provides the rapid and reliable delivery of active power through an increased output from generation or a reduction in consumption from demand sources, following receipt of an electronic dispatch instruction from National Grid. Fast reserve service requires all units to have capability to commence within two minutes following instruction, at rates of 25MW or greater per minute and providing a minimum of 50MW. Fast reserve is an additional energy balancing service used to control frequency changes.

Fast Reserve may be provided as either a Firm service, procured through a tender process, or Optional service. Submitted tender prices are compared to the costs of alternatives to deliver the equivalent level of fast reserve. This report provides information to current and potential providers about the volume of, and time periods over which, firm fast reserve is required.

## Highlights

In Sep 2015, one tender was received. More details on the tenders accepted/rejected are available from the post-assessment tender report.

The Fast Reserve Assessment Principles Report and other useful reports are available at:
