

## GC0098

Using GB Grid Code data to construct the EU Common Grid Model in accordance with Regulation (EU) 2015/1222 (CACM) and Regulation (EU) 2016/1719 (FCA)

Grid Code Review Panel – 20 September 2017  
*Panel Determination vote*

## Background

---

EU legislation requires NGET to contribute data towards a pan-EU Common Grid Model.

- Regulation 2015/1222 – Capacity Allocation and Congestion Management (CACM) which entered into force 14 August 2015
- Regulation 2016/1719 – Forward Capacity Allocation (FCA) which entered into force 17 October 2016

The legal right for NGET to share the data with EU TSOs arises from the CACM guideline; however several stakeholders have requested a Grid Code Modification be raised so that it is transparent to all parties which data will be shared

## Governance background

---

- Raised originally at May 2017 Panel
- Resubmitted to Grid Code Panel in July 2017
- Code Administrator Consultation ran from 21 August until 12 September 2017
- One response received from Industry during Consultation period
- Response received supportive of modification

# Feedback from GC Panel members nationalgrid on Self-Governance Report

---

- Front of Report to be updated following the Determination Vote with Panel Determination
- Timetable to be updated to reflect paper submission on 13 September 2017
- Legal text where it states 'xxxx'

## Panel Determination Vote

---

Does GC0098 better facilitate the following Grid Code Objectives as below?

i)	To permit the development, maintenance and operation of an efficient, coordinated and economical system for the transmission of electricity
ii)	To facilitate competition in the generation and supply of electricity (and without limiting the foregoing, to facilitate the national electricity transmission system being made available to persons authorised to supply or generate electricity on terms which neither prevent nor restrict competition in the supply or generation of electricity)
iii)	Subject to sub-paragraphs (i) and (ii), to promote the security and efficiency of the electricity generation, transmission and distribution systems in the national electricity transmission system operator area taken as a whole
iv)	To efficiently discharge the obligations imposed upon the licensee by this license and to comply with the Electricity Regulation and any relevant legally binding decisions of the European Commission and/or the Agency; and
v)	To promote efficiency in the implementation and administration of the Grid Code arrangements

## Timetable following Determination vote

Modification Panel decision (5 WDs for Panel comment following vote)	20 September 2017
Final Modification Report published	28 September 2017
Appeal window opens/closes (10WDs)	28 September 2017/2 November 2017
Decision implemented in Grid Code	3 November 2017
