Heena Chauhan
CUSC Panel Secretary

1 Introduction

Welcome to the CUSC Panel Headline Report. This shall be produced after every CUSC Panel meeting and aims to provide all of our key stakeholders / interested parties with an overview of the headlines and key decisions the Panel are currently managing. Full minutes of the meeting will be produced and approved at the next meeting of the CUSC Panel and will then be published on the website.

All presentations given at this Modifications Panel meeting can be found in the Modifications Panel area on the National Grid website¹

We would welcome any comments you may have.

2 New Proposals

CMP286 ‘Improving TNUoS Predictability Through Increased Notice of the Target Revenue used in the TNUoS Tariff Setting Process’. The purpose of this modification proposal is to improve the predictability of TNUoS demand charges by bringing forward the date at which the target revenue used in TNUoS tariff setting is fixed to allow customer prices to more accurately reflect final TNUoS rates.

CMP287 ‘Improving TNUoS Predictability Through Increased Notice of Inputs Used in the TNUoS Tariff Setting Process’. The purpose of this modification proposal is to improve the predictability of TNUoS demand charges by bringing forward the date at which certain parameters used in TNUoS tariff setting (such as demand forecasts) are fixed to allow customer prices to more accurately reflect final TNUoS rates.

The Panel reviewed the Proposal and agreed that the Proposal should be developed by a Workgroup following a standard timetable. The Code Administrator will write out to the industry requesting nominations to join the Workgroups.

3 CUSC Panel Recommendation Vote

CMP282 'The effect Negative Demand has on Zonal Locational Demand Tariffs' CMP282 seeks to amend how the DCLF model calculates Zonal Locational Demand tariffs so that the final locational zonal demand tariffs accurately reflect the underlying locational signals.

The Panel voted on CMP282 against the Applicable CUSC Objectives.

The Panel members unanimously agreed that the Original was better than the baseline.

3 Next Meeting

The next normal Panel meeting will take place a week earlier in October and will take place on 24 November 2017 at National Grid House.
