1 Introduction

Welcome to the CUSC Panel Headline Report. This shall be produced after every CUSC Panel meeting and aims to provide all of our key stakeholders / interested parties with an overview of the headlines and key decisions the Panel are currently managing. Full minutes of the meeting will be produced and approved at the next meeting of the CUSC Panel and will then be published on the website.

All presentations given at this Modifications Panel meeting can be found in the Modifications Panel area on the National Grid website¹

We would welcome any comments you may have.

2 New Proposals

There were two new proposals presented at the meeting.

CMP284 'Improving TNUoS cost reflectivity (Reference Node)'. This modification seeks to make the TNUoS charge more cost reflective resulting in a reduction of the magnitude of both the generation and demand residual charges.

The Panel agreed that this Proposal should be developed by a Workgroup following a standard timetable.

CMP285 'CUSC Governance Reform – Levelling the Playing Field'. This modification seeks to reform the CUSC governance to enhance the independence and diversity of Panel members and ensure wider engagement from CUSC signatories.

The Panel agreed that this Proposal should be developed by a Workgroup following a standard timetable.

2 Proposal Update

CMP283 ‘Consequential Changes to enable the Interconnector Cap and Floor regime’. This modification aims to facilitate the Interconnector Cap and Floor regime through creating the process for data provision between Interconnectors and National Grid within the CUSC.

Following a review of this Proposal, the Proposer has made amendments to provide greater clarity of their Proposal. The Panel have approved these changes and agreed that this proposal can proceed to Code Administrator Consultation for 20 Working Days.

3 Next Meeting

The next normal Panel meeting will take place on 25 August 2017 via teleconference.
