

## CMP250 'Stabilising BSUoS with at least a twelve month notification period'

CUSC Panel – 24 November 2017  
Heena Chauhan – National Grid

## Background

---

- CMP250 was raised by Drax and was submitted to the CUSC Modifications Panel for their consideration on 28 August 2015.
- CMP250 seeks to eliminate BSUoS volatility and unpredictability by proposing to fix the value of BSUoS over the course of a season, with a notice period for fixing this value being at least 12 months ahead of the charging season.

## Workgroup Consultation

---

- The Workgroup Consultation was carried out in March 2016.
- As well as the standard consultation questions above, the Workgroup also sought views on thirteen specific questions.
- Sixteen Responses were received to the Consultation
  - Majority of respondents supported the proposal
