

SQSS Panel Headline Report – 11 May 2022

Meeting name Security and Quality of Supply Standards Panel

The NETS SQSS Review Panel Headline Report is produced after every NETS SQSS Review Panel and aims to provide an overview of the key discussion points.

Approval of Minutes

Panel Members approved the minutes from the March Panel meeting which can be found on the National Grid ESO website via the following [link](#).

Draft Final Modification Report

GSR028 – Making the SQSS Gender Neutral

This modification is to remove all gender specific references and terminology within the ESO administered Codes and make them gender neutral.

The Panel agreed for minor suggested changes to the Draft Final Modification Report to be made.

The Panel recommended unanimously that the Proposal should be implemented, in accordance with a timeline set by the Authority.

For more details, please see [Panel Papers](#).

Other

Draft modification - Review of Demand Connection Criteria to Align with EREC P2/7

This modification is proposed to review the demand connection criteria in Section 3 of the NETS SQSS to resolve the discrepancies with EREC P2/7. This includes the review of the group demand definition and demand security contribution assumptions from embedded generation, demand side response, storage and active network management schemes.

The Proposer presented the Proposal for a this new modification which is planned to be raised formally in July. Panel members gave feedback on the Proposal and agreed that some meetings should be set up for interested parties prior to the modification being raised to further understand and refine the Proposal.

The draft Proposal, draft legal text and presentation slides can be found within the [Panel papers](#).

AOB

Review for loss of infeed risk associated with offshore DC converters

An ESO Panel member shared plans to raise a modification soon in this area.

Frequency Risk and Control Report – next edition

An ESO Panel member updated that there is likely to be a second FRCR later this year that will deal with reducing inertia.

Date of the next meeting

The next SQSS Panel meeting will be held on **13 July 2022**.
