12th October 2017

Dear Martin

Notification to change Use of System Charges for 2018/19

Condition C4 5(a) of National Grid's Electricity Transmission Licence requires National Grid to give the Authority 150 days notice of any proposal to change Use of System Charges. This letter gives notice of our intention to change Use of System Charges for the 2018/19 financial year. Our Statement of Use of System Charges also includes Application Fees and Charge-Out Rates which we are also reviewing.

Transmission Network Use of System Charges

Transmission Network Use of System (TNUoS) tariffs will be amended with effect from 1 April 2018 in accordance with Section 14 of the Connection and Use of System Code (CUSC). Section 14 describes the methodology and principles by which National Grid sets tariffs for TNUoS charges to recover allowed revenue.

The transport model used to calculate TNUoS tariffs will be amended to ensure tariffs reflect:

- Changes in network topography
- Use of the network by demand as advised by Distribution Network Owners and National Grid's own forecasts
- Use of the network by generation as advised by contracted Transmission Entry Capacity and National Grid's own forecasts

The tariff model for TNUoS tariffs will be amended to reflect:

- Latest forecast revenues for onshore Transmission Owners using licence formulae and the Price Control Financial Model Variables determined by the Authority in November.
- Anticipated payments to new and existing Offshore Transmission Owners.
- Payments to Transmission Licensees and Electricity Distribution Licensees under the Network Innovation Competition as directed by the Authority in November.
- Limits on average annual generation charges under Commission Regulation (EU) 838/2010.

Expected TNUoS tariffs for 2018/19

National Grid published an initial view of TNUoS 2018/19 tariffs in its Forecast TNUoS tariffs from 2018/19 to 2021/22 on 23 February 2017. This has been periodically updated with the latest forecast published on 30 June 2017.

The next forecast is expected by the end of October. Draft tariffs will be published by 25 December 2017 and final tariffs by 31 January 2018 in line with CUSC requirements.

Application Fees and Charge-Out Rates

Our Statement of Use of System Charges also details fees and charge-out rates for applications to connect to and/or use of system. National Grid will also review these fees and rates incorporating updated staff costs and inflation.

If you have any questions on any of the above please do not hesitate to contact Paul Wakeley (01926 655582) or me.

Yours sincerely
